

D/ Cross Slicer Hi-cap Bread Slicer Continuous high capacity (semi-)industrial bread slicer

Up to
2,400
breads per hour

Transparent doors on both sides for direct and constant inspection of slicing process, in- and outfeed system and hygiene.

Thanks to the Cross-Slice System, blades last up to three times longer.

Independently variable speed for in- and outfeed belt, reverse button for last bread and height-adjustable upper infeed conveyor belt.

After slicing of the bread, a bag blowing device automatically opens the plastic bag. Sliced bread is inserted manually in one natural movement, saving considerable time.

Steep crumb guides secure all crumbs end up in easy removable collection tray.

A unique design made up out of three connectable modules. Easily accessible for maintenance and cleaning of slicing system.

D/ Cross Slicer Hi-cap with Cross-Slice System

Fully automatic continuous high-capacity bread slicer

Unique and proven cross-slice system with angled blades that last up to three times longer.

Adjustable upper conveyor belt for free baked and round bread.
