

D/ Packaging Line Cross Slicer Hi-cap - clipband closing

Semi-automatic packaging line perfectly completing the fully automatic D/ Cross Slicer Hi-cap

Complete high capacity slice and packaging unit composed of a D/ Cross Slicer Hi-cap bread slicer, outfeed table with bag blower and horizontal conveyer line with bag closing system for clip, clipband or tape closures. Specially designed for (semi-)industrial bakeries and suitable for a large variety of different products. With simple, user-friendly and easy to operate control panels situated close to the working position for optimum operator convenience.

After slicing of the bread, the conveyor with bag closing system is manually filled in one natural movement using a bag blower, after which the bags are sealed with clip, clipband or tape closures. Brushes align the filled bags for optimum packaging results. The conveyor unit is made out of a solid constructed stainless steel frame placed on smooth-rolling wheels making the complete unit easy movable, flexible and usable in any location.

A maximum capacity of up to 2,400 bread per hour, high quality components, minimum maintenance required and a total footprint of the complete unit of just over 4m² make the D/ Packaging Line Cross Slicer Hi-cap the ideal slice- and packaging solution for the (semi-)industrial bakery.

D/ Packaging Line Cross Slicer Hi-cap

High capacity slice and packaging solution for semi-industrial bakeries
